VIEW RESPONSE TO SAGE PATENT LITIGATION

Milpitas, Calif. (December 21, 2012)—View Inc., a leading manufacturer of dynamic glass, today responded to the Sage Electrochromics assertions of certain patents against View. View does not believe it has infringed any valid claim of any patent and therefore has no liability to Sage. View Dynamic Glass is manufactured using proprietary technology and processes, creating a unique product that is being well received by customers. While defending itself vigorously, View will continue to focus on serving its customers and growing the business for this exciting technology.

About View

View Inc. manufactures View Dynamic Glass, an intelligent glass system for buildings. View Dynamic Glass incorporates user preferences and intelligently adjusts the condition of the glass, allowing unparalleled control over the amount of light and heat that enters a building. Because View Dynamic Glass eliminates the need for blinds, shades, or other obstructive window treatments, it enables those indoors to experience inspiring views and increased natural light. Delivering vastly improved energy efficiency, View Dynamic Glass alleviates the HVAC burden typically associated with glass facades, windows, and skylights—offering architects and homebuilders unprecedented design freedom. Founded on the belief that an unrestricted view is the catalyst for great things, View inspires people to see possibility, everywhere. View is headquartered in Milpitas, Calif., with high-volume manufacturing facilities in Olive Branch, Miss. For more information, visit viewglass.com.
